Let's Start!

Let's review!

Learning Outcome

Accurately use information about people's backgrounds in a wider variety of communicative situations.

Ask your partner:

- How do you like spending your weekends?
- Does it seem to rain more on the weekend or during the week? Are there patterns to the weather in your country?

Can Do Statements

- I can talk about jobs, work, and staying healthy.
- I can talk about my attitudes toward an action.
- I can talk about what I should, ought to, had better, or am supposed to do.

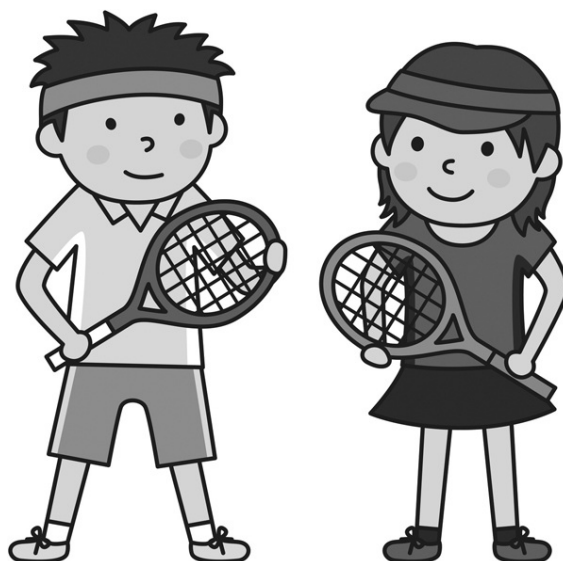

Let's Explore!

What do **pollutants*** have to do with our weekend fun? Let's read and find out.

* "Pollutants" are substances that pollute something, especially water or the atmosphere.

Instructions: Read the text aloud.

The work week is over. On the weekend, people enjoy being active. We organize our nature walks, take out our tennis rackets, pack our suntan lotion. Then, just as we attempt to restore balance in our week with sun and fun, it starts to rain. Does it just seem to rain more on Saturdays, or is there any proof that Saturday really is the rainiest day of the week?

After studying 17 years of weather records 24 hours a day along the East Coast of North America, a pattern was found: average rainfall was lowest on Mondays and increased throughout the week until Saturday, which had more rain than any other day.

What is the explanation? The scientists blame cars. Air pollution rising from cars builds up throughout the week as people commute to and from work. As pollutants rise into the air, they are heated by the sun. Clouds form. By the weekend, when most people are ready to pursue a day of pleasure, the clouds burst and rain falls. Picnics are canceled, and football matches are postponed.

If the people who complain about weekend rain are the same people who cause it, they should be interested in finding a way to create sunnier Saturdays. People ought to be more willing to confront the environmental issues they create. We had better start to care more about the ecosystem. We are supposed to be creating a better world!

Let's Practice!

Maria talks to what we should be doing for the environment.

Instructions: Draw a line to match the sentences from Column A to Column B.

COLUMN A

1. They should be
2. People ought to
3. We had better start
4. We are supposed to
5. Our weekend should

COLUMN B

- a. interested in finding a way to change the weather.
- b. always be sunny!
- c. be more willing to confront the environmental issues they create.
- d. be creating a better world!
- e. to care more about the ecosystem.

Let's Practice!

It always rains on the weekend!

Instructions: Circle the correct word to complete the sentence.

1. On the weekend, people enjoys to be / enjoy being / enjoy to be active.
2. After study / studying / to study 17 years of weather records 24 hours a day along the East Coast of North America, a pattern was found.
3. They should be interested in find / finding / to find a way to create sunnier Saturdays.
4. Does it just seems to rain / seem raining / seem to rain more on Saturdays, or is there any proof that Saturday really is the rainiest day of the week?
5. Just as we attempt to restore balance in our week with sun and fun, it starts to rain / starts to raining / starts rain.

Extension Activity

Plan a weekend of activities.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Imagine that you have a busy, stressful job.
- Plan a weekend of activities to help you balance your week.
- Create a schedule with all your activities.
- Compare your schedule with another student. Which schedule do you like better?

Self-Assessment

Yes

No

I talk about jobs, work and staying healthy.

☐ ☐

I talk about my attitudes toward an action.

☐ ☐

I talk about what I should, ought to, had better or am supposed to do.

☐ ☐

I make a weekend schedule of activities.

☐ ☐

Target Words

- **active** (adjective): having energetic activity
e.g. On the weekend, people enjoy being active.
- **nature walk** (noun): a walk on a nature trail with an experienced guide
e.g. We organize our nature walks, take out our tennis rackets, and pack our suntan lotion.
- **balance** (noun): a state where things are of equal importance or force
e.g. Just as we attempt to restore balance in our week with sun and fun, it starts to rain.
- **24 hours a day** (expression): all day; around the clock
e.g. After studying 17 years of weather records 24 hours a day along the East Coast of North America, a pattern was found.
- **average** (adjective): usual or ordinary standard, level, or quantity
e.g. Average rainfall was lowest on Mondays and increased throughout the week until Saturday.
- **to pursue** (verb): to seek to attain or accomplish a goal, especially over a long period
e.g. By the weekend, most people are ready to pursue a day of pleasure.

Learning Points

Gerunds and Infinitives

A **gerund** is a verb ending with *-ing* (*doing*).

An **infinitive** is *to* + verb (*to do*).

There are rules about which verbs you can use with gerunds and which verbs you can use with infinitives.

Verbs commonly followed by a gerund:

Verbs that express **likes/dislikes**:

- like
- love
- enjoy
- dislike
- hate

Example:

*On the weekend, **people enjoy** being active.*

The verbs *like/love/hate* can also be followed by an infinitive.

Some other verbs that are followed by a gerund:

- anticipate
- consider
- delay
- complete
- involve
- suggest
- risk

You use gerunds after prepositions:

After studying 17 years of weather records 24 hours a day along the East Coast of North America, a pattern was found.

These are some verbs that are followed by an infinitive:

- hope
- proceed
- seem
- need
- attempt

Learning Points

Example:

*Does it just **seem to rain** more on Saturdays?*

You use infinitives after adjectives.

Example:

*By the weekend, when most people are **ready to pursue** a day of pleasure, the clouds burst and rain falls.*

Examples:

- *We had better start to care more about the ecosystem.*
- *If the people who complain about weekend rain are the same people who cause it, they should be interested in finding a way to create sunnier Saturdays.*
- *Then, just as we attempt to have balance in our week with sun and fun, it starts to rain.*

Learning Points

The Passive

You use an active structure when you want the 'doer' of the action to be the subject.
You use a passive structure when you want the 'receiver' of the action to be the subject.

Active sentence = *The sun (subject) **heats** the pollutants (object) as they rise into the air.*

Passive sentence = *As pollutants (object) rise into the air, they **are heated** (by the sun).*
It is not necessary to mention the object in a passive sentence.

You make the passive form of a verb by using tenses of the verb *to be* followed by the past participle.

The Simple Present passive form is:
Subject + *is/are* + past participle

Example:

*Picnics **are canceled**, and football matches **are postponed**.*

The Simple Past passive form is:
Subject + *was/were* + past participle

Example:

*After studying 17 years of weather records, a pattern **was found**.*

Examples:

- *After studying 17 years of weather records 24 hours a day along the East Coast of North America, a pattern was found.*
- *As pollutants rise into the air, they are heated by the sun.*
- *Picnics are canceled, and football matches are postponed.*
